

Mahnaz Modirkhazeni

Ph.D. Student of Mechanical Engineering - Fluid Mechanics and Heat Transfer

**Department of Mechanical Engineering
University of Shiraz**

Ms. MAhnaz Modirkhazeni graduated from Ferdowsi University of Mashhad (Iran) with a B.Sc. (2009) in Mechanical Engineering. Her bachelor's thesis involved "Studying condensation phenomenon on different surfaces" under the supervision of [Dr. Javad Abolfazli Esfahani](#). In 2010 she enrolled in the M.Sc. program at Ferdowsi University of Mashhad, under the supervision of [Dr. Javad Abolfazli Esfahani](#). Her Master's thesis project was "Analysis of Condensation on an elliptical tube with consideration of the separation of the condensate layer from the tube surface". In 2012, she has been accepted to study Ph.D. programs at University of Shiraz.
